

**Alphabetical species list: BARRY WEBB'S SLIME MOULD PHOTOS – LATIN NAMES**

Number of species: 43

yellow highlight: new to Buckinghamshire: 14

Arcyria cinerea  
Arcyria denudata  
Arcyria obvelata  
Ceratiomyxa fruticulosa  
Ceratiomyxa porioides  
Collaria arcyrionema  
Collaria lurida (previously Comatricha lurida)  
Comatricha nigra  
Comatricha pulchella  
Craterium minutum  
Cribraria argillacea  
Cribraria aurantiaca  
Cribraria cancellata  
Cribraria cancellata var fusca  
Cribraria mirabilis  
Cribraria persoonia  
Cribraria rufa  
Cribraria vulgaris  
Dictydiaethalium plumbeum  
Diderma floriforme  
Didymium clavus  
Didymium nigripes  
Didymium squamulosum  
Enerthenema papillatum  
Hemitrichia calyculata  
Lamproderma scintilans  
Lycogala conicum  
Metatrachia floriformis  
Physarum album (previously P. nutans)  
Physarum compressum  
Physarum leucophaeum  
Physarum leucopus  
Physarum pusillum  
Stemonitis axifera  
Stemonitis flavogenita  
Stemonitis fusca  
Stemonitis sp  
Stemonitopsis hyperopta?  
Stemonitopsis typhina  
Trichia botrytis  
Trichia decipiens  
Trichia varia  
Tubifera ferruginosa  
  
Pilobolus crystallinus (NB not a slime mould!)  
Scutellinia scutellata (also not a slime mould)
